A full time security guard had been hired to watch the new build development at night and some arrests had been made in relation to the previous act of vandalism and general criminality.

Norman Earle asked if there had been any movement on the discussions around installing CCTV in the area. Keith explained the financial aspect of such a move and now that the area had seen a decrease in anti-social activity it would be harder to justify but could always be an option in the future if the situation were to deteriorate.

Sgt McLaren also informed Group that he was currently trying to get a breakdown of the PSNI statistics for the area over the last 2 years.
